PROFESSIONAL SUMMARY

Senior Software Engineer with 6+ years of experience across financial services, healthcare, and aviation SaaS. Full-stack engineering background in React, Node.js, Python, Django, and REST APIs, with experience in web application enhancements, AWS Lambda-based processing, production troubleshooting, and monitoring application and partner-data workflows.

CORE SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Python, Django, Django REST Framework, Ruby on Rails, REST APIs

Cloud & Monitoring: AWS Lambda, Amazon CloudWatch, New Relic

Databases: PostgreSQL, MongoDB

Engineering: API debugging, troubleshooting, batch-job support, partner data-flow monitoring, performance optimization, RBAC, Redux, Context API

Tools: Git, GitHub, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

ValueLabs — Senior Software Engineer

Hyderabad | Feb 2024 – Present

- Contribute to a financial-services platform using React and Node.js, supporting application enhancements and production issue resolution.
- Enhance React-based screens and operational dashboards to improve visibility into financial and partner-processing workflows.
- Develop and maintain AWS Lambda functions for batch-oriented processing and related data workflows.
- Troubleshoot batch-job failures and partner data-feed issues, helping restore expected processing and data availability.
- Support a web-based partner-monitoring application that tracks incoming data volumes, partner status, processing failures, and downtime.
- Use New Relic dashboards and Amazon CloudWatch logs/metrics to monitor application health, investigate anomalies, and support incident resolution.
- Resolve L1/L2 application issues, including payment-status checks, bank-maintenance incidents, and internal business-portal support.
- Investigate API and database-related issues and coordinate with relevant teams to drive them to resolution.
- Develop enhancements and new features for internal business applications and workflows.
- Contribute to code quality, incident documentation, and coordination with client and engineering teams.

Oracle Cerner — Software Engineer

Bangalore | Jan 2022 – Feb 2024

- Developed and enhanced healthcare web applications using React.js, Node.js, Ruby on Rails, HTML, CSS, and JavaScript.
- Implemented Role-Based Access Control (RBAC) to support secure, role-specific access to application features.
- Collaborated with cross-functional teams to deliver features, enhancements, bug fixes, and production-ready releases.
- Participated in code reviews and applied practices focused on maintainability, performance, and application security.

AeroSimple Technologies (formerly UnoSimple Technologies) — Software Development Engineer

Visakhapatnam | Dec 2019 – Jan 2022

- Worked on an aviation SaaS product using React, Python, Django, Django REST Framework, Node.js, and Express.js.
- Contributed to microservice-based application development for airport operations and related workflows.
- Implemented RBAC and standardized reusable React/TypeScript components to improve consistency across the frontend.

- Worked with product and engineering teams to clarify requirements, deliver features, and support releases.
- Optimized backend APIs and reduced unnecessary data transfer between client and server.

UnoSimple Technologies — Software Development Engineer Trainee

Visakhapatnam | Sep 2019 – Dec 2019

- Contributed to early-stage product development and built foundational experience in React.js, Node.js, and full-stack engineering.

PERSONAL PROJECT

GlobalCalqulate — Client-Side Calculator Platform | globalcalqulate.com

- Built a calculator website with 500 calculators across multiple countries using Next.js and reusable client-side calculation components.
- Designed shared calculation logic and reusable UI components to keep calculator behavior and presentation consistent.
- Owned the website's frontend implementation, performance improvements, Cloudflare deployment, and maintenance.

EDUCATION

Bachelor of Technology — Sri Prakash College of Engineering | 2012–2016

Intermediate — Sri Chaitanya Junior College | 2010–2012

SSC — Sri Shirdi Sai Vidya Niketan | 2009–2010
